About

A dedicated Full Stack Developer skilled in the MERN stack, REST API development, and modern UI/UX design. Strong understanding of core computer science fundamentals including DBMS, Operating Systems, Networks, and Data Structures. A fast learner with strong problem-solving skills, effective teamwork, and a focus on building clean, scalable, and user-centered digital solutions.

Education

Nachimuthu Polytechnic College <i>Diploma in Computer Engineering – 81.7%</i>	July 2022– May 2024 <i>Pollachi, Tamil Nadu</i>
Bannari Amman Institute of Technology <i>Bachelor of Engineering in Computer Science – CGPA: 6.46</i>	July 2024 – May 2027 <i>Erode, Tamil Nadu</i>

Relevant Coursework

- Data Structures
- JavaScript
- Web Technologies
- Database Management
- Systems
- Computer Networks
- Computer Architecture

Experience

LitzTech <i>Full Stack Development</i>	Nov 2023 – Dec 2023 <i>Coimbatore, Tamil Nadu</i>
• Completed a 30-day intensive Full Stack Development training program focused on practical, real-world application development. • Gained proficiency in front-end technologies including HTML, CSS, JavaScript, and React for building interactive user interfaces. • Developed a full-stack web application using MongoDB/MySQL with complete CRUD functionality. • Hands-on experience in debugging, deployment workflows, and version control using Git and GitHub.	

Projects

Poultry Management System <i>MERN, Chart Analytics, Tailwind CSS</i>	July 2025 – Aug 2025
• Developed a full-stack poultry farm management system with daily data entry forms and interactive dashboards. • Implemented automated FCR (Feed Conversion Ratio) calculation with dynamic chart visualization for performance tracking. • Built secure authentication, strong data validation, and optimized MongoDB storage for scalable operations.	
Expense Tracker Web App <i>React, Node.js, MongoDB, Tailwind CSS</i>	Aug 2025 –Sep 2025
• Built a responsive expense tracking system allowing users to record, categorize, and analyze daily spending. • Implemented JWT authentication, CRUD features, and real-time expense charting for better financial insights. • Optimized data filters and search functionality for smoother user experience.	
Student Feedback System <i>HTML, CSS, JavaScript, PHP, MySQL</i>	Jan 2024 – May 2024
• Developed a web-based platform for collecting and analyzing feedback from students to improve academic performance. • Enabled secure login for students and admins, with role-based access and feedback management. • Designed visual feedback summaries and automated report generation for administrators.	

Technical Skills

Frontend: HTML, CSS, JavaScript , React
Styling: Tailwind CSS, Responsive Design
Tools: Git, GitHub, Figma, Postman
Backend: Node.js, Express.js
Databases: MongoDB, MySQL

Certifications

- **NPTEL** — Social Networks (65%)
- Full Stack Development Internship — **LitzTech**
