CAREER OBJECTIVE

Motivated CSE fresher with hands-on full-stack development experience and a strong foundation in Data Structures and Algorithms. Proficient in Java, React, Node.js, and Express.js, eager to contribute to real-world software projects and grow as a software engineer.

EDUCATION

Bannari Amman Institute of Technology

BE Computer Science and Engineering

CGPA:6.2*(till 5th Sem) (2023-2027)

Shanmugha Polytechnic College (Sastra University)

Diploma in Mechanical Engineering

78.2% (Aug 2022- May 2024)

PROJECTS

Poultry Management System — MERN, Chart Analytics, Tailwind CSS (Live) Jun 2025 – Present

- Developed a poultry management system with daily farm data entry and dashboards.
- Added automatic FCR (Feed Conversion Ratio) calculation with chart visualization.
- Implemented secure authentication, data validation, and optimized MongoDB storage Expense Tracker

Project — MERN Stack

- Created an Expense Tracker application that allows users to log expenses, assign categories, and monitor spending patterns.
- Implemented secure user authentication, admin product management dashboard, and role-based access control using React.js and Node.js.
- Focused on simplicity, accuracy, and ease of use, making it suitable for daily personal finance tracking.
- Ensured efficient data handling and clean console-based UI for improved user experience.

SKILLS AND TOOLS

Programming: Python, C, JavaScript

Frontend: React.js, Tailwind CSS, HTML, CSS, UI/UX

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

CS Fundamentals: Data Structures and Algorithms, OOP, DBMS

Tools: Git, GitHub, Postman, VS code

Problem Solving: LeetCode Problems, Hacker Rank Badges (SQL, Java, C)

INTERNSHIP

Shanmugha Precision Forging, Thanjavur, TN

Sep–Oct 2023

- Hands-on exposure to forging operations and heat treatment processes.
- Familiar with quality inspection methods and shop-floor safety practices.
- Gained insight into production workflow and basic machine maintenance.
